

SECTION B-B
(NOT TO SCALE)

NOTES

1. Pipes draining into the inlet shall be placed at 2 inches above the elevation of the outlet pipe.

2. Maximum size of pipe to be used with inlet will be 24".

3. Outlet pipe may be placed to the front or back of the inlet.

4. If pipe is to be placed under pavement and the cover from top of pipe to the bottom of pavement is 30" or less, Class "A" Concrete encasement will be required.

5. Inlets shall be built of brick, precast solid concrete blocks, or cast in place concrete.

All joints to be staggered.
